Introduction

A library is the heart of an academic institution. Our institution Library is located near the entrance of the college and functioning in a separate two storied building having a built up area of 1640 Sqm and it has a seating capacity of 150 with air conditioning. The library has more than 57380 volumes of books covering all disciplines of Engineering and Technology, Management, Science & Humanities.

The Central library currently subscribes 135 print versions of National Journals and Magazines and print versions of International Journals. Apart from the print version of the journals the library provides On-line access to a large number of full-text e- journals from PROQUEST Online e- Journals, and Open Access E-Journals under the DELNET membership.

Vision To be a leader in higher technical education and research by Providing the state of the art Facilities to transform the learners into global Contributors and achieves.

Mission

- Selecting, acquiring, organizing, maintaining and making accessible a collection of printed and non-printed materials that will support the educational, research of both students and the faculty
- Providing library users with point-of-use instruction, personal assistance in conducting literature research and other reference services.

Objective

- To ensure the availability of books and journals required by the students and faculty.
- To Develop and maintain effective and efficient infrastructure to provide and deliver information services.
- To Support and enhance teaching and learning processes by delivering and promoting the effective use of information resources.

Library Computerization

The Library uses AutoLib –Multi User Library software package which is an integrated multi-user library management system that supports all in-house operations of the Library. The AutoLib consists of modules on acquisition, cataloguing, circulation and OPAC. The database of books available in the Library is being updated on day to day basis with details of recently acquired books
